

Support available for PODD with Compass

****Tobii Dynavox and Smartbox have announced they will be merging. They have advised that Compass software will be discontinued. If you have any questions or would like further information about the merger, please contact LinkAT or Tobii Dynavox.****

Compass was developed by Tobii Dynavox. It is available on Windows and iOS devices. This version of Compass includes the premium PODD (Pragmatic Organisation Dynamic Display) pagesets.

Support for programming and troubleshooting Compass is available. Ask your primary Speech Pathologist for help, or for further support:

ILC WA Assistive Technology Service

To speak with a Speech Pathologist or Occupational Therapist:
