• Vehicle Solutions Expert
Modules

- Client Considerations
- Vehicle Considerations
- Internally Mounted Hoisting Solutions
- Externally Mounted Hoisting Solutions
- Further Information
Client Considerations

• **Mobility** – Can the client move to and from the rear of the vehicle?

• **Flexibility** – Can the client secure and attach the lifting bracket to the mobility device?

• **Strength** – Can the client maneuver the mobility device while suspended and remove the seat if needed?

• **Cognitive ability** – Can the client operate the buttons/controls of the equipment?
Vehicle Considerations

• **Size** - Does the client's mobility device fit inside of the vehicle?
• **Space** - Do you require your boot for other luggage or equipment?
• **Weight** - What is the weight of the client's mobility device?
• **Vehicle model** - What type of vehicle does the client have? Sedan, hatch, SUV, Van etc.
